3 speed levels

10" Air tire

Disc brakes front & rear

Change with shock absorber front & rear

Loadable up to 130 kg

LCD Display

Up to 25 km/h

Blinker and LED floor lighting

BE COOL HAWK - Full power and good visibility

The combination of performance, safety and innovation sets new standards in the segment of the upper class e-scooter.

The powerful and maintenance-free 600 watt hub motor accelerates to the maximum permissible speed of 25 km/h in seconds. Its high torque is very much fun. The scooter masters inclines of up to 20 degrees brilliantly. The 12.5 Ah/48 volt battery allows trips of up to 45 km before it has to be returned to the socket, which is due to its efficient battery management system.

Comfortable on the road.

The double shock absorbers on the front and rear wheels not only ensure comfort, they also increase the safety of your journey. If the ground is sometimes not so beautiful, these are swallowed by the suspension. The high quality of all components and the 10 inch pneumatic tires allow sporty driving. The built-in components are rounded off by the infinitely height-adjustable handlebars and the foldable handles.

Safety is a top priority for BE COOL.

Der BE COOL HAWK has installed a special light package. In addition to LED headlights at the front and rear, a special LED floor lighting ensures even more visibility in the dark. The built-in indicators, which are switched on directly on the handlebars, provide even more safety. This safety standard is also reflected in the highly efficient disc brakes on the front and rear wheels, which can be operated independently of each other.

Experience the new dimension of movement and enjoy every ride with the BE COOL HAWK.

Efficient braking system

The BE COOL HAWK has a brake on the front and rear axles. These can be operated independently of each other. With this dual braking system you can get to a stop quickly and safely at any time.

Chassis

The BE COOL HAWK has mechanical shock absorbers on the front and rear axles. The suspension increases the driving comfort and small potholes as well as unevenness are absorbed without a roam.

Content

- E-scooters
- Manual
- Charger

Guarantee

- 2 years, excluding wearing parts
- Battery: 6 months

everything in view - everything under control

The display is optimally operated and it is easily readable. Thanks to the ergonomically shaped handles, you have the BE COOL HAWK firmly under control every time you manoeuvre. The handles can also be folded together and therefore the scooter is easy to store.

safe movement on all routes

The mechanical shock absorbers on the front and rear axle swallow easily potholes. The disc brakes on both axes allow you to carry out each maneuver safely. The powerful LED headlights and floor lighting increase safety and visibility.

Technical data

- Engine power 600 watts
- Maximal range: 45 km*
- Battery type: 12,5 Ah, 48 V
- Watt hours: 600 Wh
- Disc brake front and rear
- Suspension with shock absorber front & rear
- 3 speed levels
- Max. speed: 25 km/h
- 10 inch air tires
- LED-Lights front and rear
- LED-Floor lighting
- LCD Display
- Bell & horn
- Max. load capacity: 130 kg
- Charging time: 6 hours
- Charger: Input AC 100-240V / Output DC 54,6V 2.0A
- Gross dimensions - (H x W x D): 960-1.240 mm x 230 mm x 1.220 mm
- Gross weight: 27,5kg
- Colour: black
- Internal article no: BC10ES750002HK
- EAN: 9005151000146

* Test variables for the range: person: 70 Kg, weather: dry, 25 C° and windstill, continuous speed of 15 km/h, track condition: flat, smooth asphalt

The actual range depends on various factors such as load, temperature, wind speed, road conditions and driving style.
