

Highlights

- **Effective cooling**
For rooms up to max. 50 m²
- **3 speed levels**
low, medium, high
- **Air purification**
the air drawn in is purified by the filter
- **Air dehumidification**
the air conditioner dehumidifies the room air
- **Swivel function**
Distributes the cooled air optimally to all areas of the room
- **Automatic evaporation system**
Better efficiency and 100% evaporation with less than 90% humidity
- **Timer**
Adjustable up to 24 hours

Our SHE monobloc air conditioner with 14,000 BTU

The compact design in combination with 14,000 BTU is one of the few on the European market that combines all the advantages of a powerful air conditioner in one unit. With a cooling capacity of 14,000 BTU, small offices or larger rooms with up to 125m³ / max. 50m² can be air-conditioned.

In recent years, mobile air conditioners have become increasingly popular because they are easy to install after purchase. This means you do not need an expensive air-conditioning technician.

The slim design, including the wheels installed on the base of the unit, guarantees unlimited comfort and makes this air conditioner an all-rounder for any location.

The air conditioner is not only suitable for lowering the temperature, but also for ventilating and dehumidifying. This guarantees a perfect room climate even in the transitional months.

Our recommendation:

A matching HOT AIR STOP from SHE or BE COOL for optimal sealing of your windows or doors.

Filter

This air conditioner passes the ambient air through a washable filter. After cleaning, the clean cooled air is released back into the room.

Dehumidification

In addition to cooling the air, the air conditioner differs from conventional fans in that the cooled air is also dehumidified and purified. This improves the room climate by two further parameters relevant to well-being.

Scope of delivery

- Air conditioner
- Remote control incl. battery (AAA)
- Exhaust air hose
- Window strip
- Taper adapter
- Operating instructions

Warranty period

- 2 years

Specifications:

- 3in1: cooling, dehumidification, ventilation
- BTU Cooling: 14,000 BTU/h
- Cooling capacity: 4,000 W
- Application range (non-binding): for rooms up to max. 125m³ - max50m² (at 2.5 metre room height)
- EER: 2.6 W/W
- EU energy efficiency class: A
- Air circulation: 400 m³/h
- Noise level (sound pressure): 53 dB(A)
- Noise level (sound power): max. 65 dB
- Power consumption (cooling/stand-by): 1538 watts / < 1 watt
- Power supply: 220-240 V/50 Hz
- 24 h timer, remote control
- Energy-saving auto mode
- 3 speed levels
- Auto-swing function
- automatic evaporation system (better efficiency and 100% evaporation at less than 90% humidity)

Dimensions:

- Product (W×H×D): 440×715×335 mm
- Packaging (W×H×D): 474×875×376 mm
- Net/gross weight: 26 kg / 31 kg
