Our SHE monoblock air conditioner with 7,000 BTU

The combination of modern design and top value for money. The SHE air conditioning system with 7,000 BTU combines all these advantages in one unit.

With a cooling capacity of 7,000 BTU, medium-sized rooms and also smaller offices with up to max. 65m³ / max. 26m² can be air-conditioned.

In recent years mobile air conditioners have become more and more popular because they are easy to install after purchase. Therefore you do not need an expensive air conditioning technician.

The slim design including the wheels installed on the bottom of the unit guarantee unlimited comfort and make this air conditioner an all-rounder for any location.

The air conditioner is not only suitable for lowering the temperature, but also for ventilating and dehumidifying. This guarantees a perfect indoor climate even in the transition months.

Filter

This air conditioner directs the ambient air through a washable filter. After cleaning, the clean cooled air is released back into the room.

Dehumidification

In addition to cooling the air, the air conditioning unit differs from conventional fans in that the cooled air is also dehumidified and cleaned. This improves the indoor climate by two further parameters that are relevant for the well-being.
