Wellness atmosphere at home!

The decorative humidifier and diffuser from BE COOL combines two functions in one device.

- Humidification cold air & warm air + aroma diffuser

Air Humidification

Through its micro-fine spray mist it humidifies the room air and thus ensures a fresh Room climate. **Already equipped with a calc filter, nothing stands in the way of a long service life.**

Aroma Diffuser

The aroma function is easy to activate. Just put a few drops of your favorite oil in the aroma compartment and activate the humidifier.

A room scent has an enormous influence on body and mind. It can revitalize the organism, awakens pleasant memories or encourages creative thinking. In addition, it creates a comfortable living climate in the bathroom, bedroom or living room and invites you to relax.

Air Purifier – optionally retrofittable

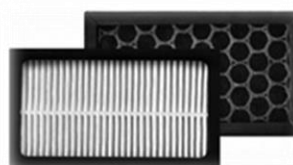

With the optional available filters (ION filter and HEPA filter) the humidifier from BE COOL can be upgraded especially for allergy sufferers. The ION filter and the HEPA filter clean the air and water in the room and free it from bacteria, germs, microorganisms and viruses.

The compact Be Cool humidifier and diffuser can be used with or without aromatic oil.

The purer the aromatic oil, the more effective

Essential oils are particularly effective and productive. Provided the quality is right. Therefore, the bottle should bear the designation "One hundred percent essential oil".

AROMAÖLE
ESSENTIAL OILS

Volume

The modern ultrasonic fogging technology for air humidification is almost noiseless and thus perfectly suited for your bedroom.

Nebulizer Technology:

Thanks to effective high-frequency technology, the water is converted into a micro-fine mist and blown into the room air by a fan.

Scope of Delivery:

- Instruction manual
- Remote control
- Batteries
- Lime filter

Optionally available:

- ION Filter
- HEPA Filter

Warranty Period

- 2 years

Österreichische
Marke

The built-in LED display with touch panel provides information about the relative humidity and the current room temperature, and the 10-hour timer allows you to set the operating time of the humidifier.

The special feature of this model

is an innovative tank filling system. In this model, the water is poured into the tank from above and not, as in most devices of this type, through a hole in the bottom. Furthermore, the tank can be filled in two ways. It can be removed from the appliance and placed directly under the tap, or you can pour water into it from a filter jug or bottle, for example.

Technical Data

- Suitable for a room size of 40-50 m²
- Max. power consumption: 105 Watt
- Voltage 220-240 Volt
- Warm air humidifier
- cold air humidifier
- Humidification level adjustable 40-80%
- Recommendation filter change: every 2 months
- tank capacity: 4 liters
- noise level: 35dB
- Aroma oil usable
- Humidification level cold air per hour: 300 ml/h
- Humidification level warm air per hour: 400 ml/h
- Timer function: 1-10 hours
- Lime filter
- ION Filter
- HEPA Filter
- Remote control
- color: white/grey
- Product dimensions (WxHxD): 190x320x190 mm
- Packaging dimensions (W x H x D): 241x365x236 mm
- Weight net / gross: 2,1kg / 2,8kg
- EAN: 9 005665 026014
