

Highlights

- Durable nylon webbing
- Lightweight and foldable - easy to put in any bag and take with you
- Padded shoulder strap for easy carrying
- Quick-release buckle for easy closing and opening
- Adjustable length - it can be adjusted according to need

The scooter carrying strap from BE COOL

For relaxed carrying of scooters, balance boards and foldable bikes, this durable and tear-resistant strap is perfect!

Thanks to additional padding, pressure points on the shoulder are avoided and with the quick-release buckle, the strap can be closed and opened quickly and easily.

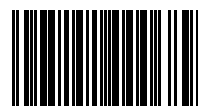

As the length can be adjusted from 110-160 cm, the harness can be adapted for many body sizes and equipment. Alternatively, the belt can also be used to pull e.g. children's bicycles.
