

Highlights

**Top loader 6 litres**

Water refilling takes place on the top side

**3 speed levels**

low, medium, high

**Timer**

up to 7 hours

**Simple operation**

on the unit or via the remote control

**Refreshing 3in1 air cooler**

with air purification and humidification function

The powerful air cooler provides pleasant cooling in your home.

Thanks to the innovative, natural cooling technology, the device is energy-saving and releases cooled and purified air into the room. Ideal for living areas where an expensive air conditioner is not necessary.

3 speed levels combined with the different functions (cooling, ventilating) give you full freedom over the intensity of cooling.

Another highlight is the filling of the water tank. This is done from the top of this air cooler, making it easier to refill the water tank.

Cooling effect

Cools the room air by up to 8°C.

Swivel function

The swivel function distributes the cooled air optimally to all areas of the room.

Air purifier

The air drawn in is washed through the filter. Dust, pollen, mites as well as bacteria and unpleasant odours are thus filtered out of the air.

### Air cooler & honeycomb filter

Air coolers draw in the heated room air on one side and then pass it through a honeycomb filter containing cold water as a coolant. The water in the cooling system slowly evaporates and absorbs heat from the room air flowing through. A fan then blows the now cooler room air back into the room.

### Air purification & humidification

In addition to cooling the air, the air cooler differs from conventional fans in that the air is humidified and purified. After the summer season, the unit can also be conveniently used as an air humidifier.

### Scope of delivery

- Air cooler
- Remote control incl. battery (CR2025)
- Castors with locking function
- Cooling battery (2x)
- Operating instructions

### Warranty period

- 2 years

### Specifications:

- Device type: Air cooler
- Cooling function through atomisation/evaporation of water
- Air purifier function (cools the room by up to 8°C)
- 3 wind modes normal/natural/sleep
- Robust housing with castors
- Swivel function
- Air circulation: 408 m<sup>3</sup>/h
- 2 cooling batteries included
- Power consumption in watts: 65 watts
- Input voltage: 220V - 240V 50Hz
- Water tank capacity: 6l
- Top loader can be filled with water from above
- Water tank can be pulled out
- 3 speed settings
- 7 hours timer function
- Colour: white/silver

### Dimensions:

- Product (W×H×D): 262×724×278 mm
- Packaging (W×H×D): 31×765×325 mm
- Net/gross weight: 5.9 kg / 7 kg
