

## Highlights

### 5 litre water tank

Operating time with full tank up to 12 hours

### 3 speed levels

low, medium, high

### Operation

on the unit or via the remote control supplied

## Cooling effect

Cools the drawn-in room air by up to 8°C.

## Air purifier

The air drawn in is washed through the filter. Dust, pollen, mites, bacteria and unpleasant odours are filtered out of the air.

## Scope of delivery

- Air cooler
- Remote control
- Operating instructions

## Warranty period

- 2 years

## 3 in 1: cooling, humidifying, ventilating

Treat yourself to a fresh breeze at the hot time of the year - with the BE COOL BCP5AC2201F with 5 litre water tank, you can let the unit work for up to twelve hours.

The air cooler cools by evaporative effects and also ventilates the air cooled with water, making it the cost-effective and environmentally friendly alternative to a mobile air conditioner in terms of purchase and operation!

The water tank is easy to refill and the unit humidifies the ambient air instead of drying it out.
