

# Infrared Radiant Heater 800W

360° table heating for balcony and terrace

SHX49HEAT2022

## Highlights

-  800 watt power  
Power consumption
-  Rooms up to 3 m<sup>2</sup>  
Rooms
-  Protection class IP44  
protection class
-  Safety thanks to anti-tipper  
tip-over protection

## Balcony and terrace

Our compact 360° Infratrot floor-standing radiant heater heats up very quickly thanks to the carbon lamp, is easy and safe to transport on the carrying handle and is perfect for the balcony or small terraces!

## Powerful infrared floor heater from SHX

The SHX49HEAT2022 infrared floor heater uses a carbon lamp as the heating element. This enables the environment to be heated up very quickly. Due to the internal reflector, the floor heater emits an additional 20% more radiant heat.

The SHX radiant heater has an anti-tilt protection, which switches off the radiant heater if it tips over. In addition, it convinces with its compact and robust structure, which is suitable for indoor as well as outdoor use.

So you can enjoy the heat comfortably and easily. The radiant heater is certified according to protection class IP44, so it can also be used in weather-protected outdoor areas (e.g. on balconies or terraces).

Safety and performance are SHX's top priorities - see for yourself.
