- 2 years

### Radiant heater on stand, 2000 watts with pull-chain switch

Ready for the next barbecue, even when it's not so balmy: no problem with the SHX02HS2000 radiant heater!

Too cold in the workshop? Set up the radiant heater, adjust the desired power with the pull chain and you'll be warmer in no time.

If you are looking for an easy-to-use radiant heater with great performance, without a lot of bells and whistles and an anti-tilt switch: here it is!
