

Highlights

- **Data storage**
via battery
- **Display**
Generous LC display
- **Operation**
Simple & intuitive

Monitor energy consumption, save electricity, minimise costs!

With the new energy cost meter from **SHX**, you always have your power consumption under control.

On the large LCD display, you always have relevant data such as current, voltage and power in view.

Simply and conveniently set parameters such as the price per kWh - and you will have the costs for your computer in the home office or the standby consumption of your TV under control.

The maximum load is 16 amps, 3680 watts - so even power-hungry devices can be measured.

Thanks to the built-in rechargeable battery, your data will always be saved, even if there is a power failure or the meter changes location.

Energy Cost Meter

SHX-PM05FW

Scope of delivery

- Energy Cost Meter
- Operating instructions

Warranty period

- 2 years

Specifications:

- Input voltage: 230 V - 250 V
- Frequency: 47 Hz - 63 Hz
- Power consumption: max. 16 A / 3680 W
- Battery: 3.6V NI-MH
- Accuracy: +/- 2%
- Voltage display: 0.0 V - 9999 V
- Current consumption display: 0.000 A - 65.00 A
- Power consumption display: 0.0 W - 9999 W
- kWh display: 0.000 kWh - 9999 kWh
- Energy cost display: 0.00 - 99.99

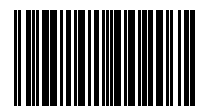

Dimensions:

- Product (H×W×D): 130×65×77 mm
- Packaging (H×W×D): 145×65×82 mm
- Net/gross weight: 0.15 kg / 0.19 kg

Österreichische
Marke

For use in dry rooms only.

Technical changes, errors and colour variations excepted.
