up to 12 km/h* max. speed

Loadable up to 100 kg

Backpack bag:

- Simple and flexible: optimally adjustable shoulder straps
- Easy to sling around: Backpack with zip
- Extra storage space: mesh pocket on the outside

Give free rein to creativity

It's not just the design that makes a statement. You can also give full rein to your creativity and enjoy the fun when riding the balance board.

The built-in mechanism allows the rider intuitive, almost floating and effortless control of the Balance Board.

Safety is a top priority. There is an automatic shutdown as soon as contact with the ground is lost as well as in case of falls.

The 6.5" tyres are non-slip, durable and puncture-proof. With the right practice, riding on uneven ground is possible. Just climb on and you're ready to go! You lean into the direction of travel and the ride begins. The non-slip treads allow for very safe movement.

The Balance Board Graffiti stands for highest demands paired with a safe ride for your children.

Great power and cool design

The motor power of 400 watts (2x 200 watts) brings you safely to your destination with a top speed of 12 km/h. The 6.5" solid rubber tyre is maintenance-free and there is no chance of a flat tyre.

The aluminium rim design not only looks classy, but also offers high stability and robustness.

Safety first

If it gets a bit darker or you are out and about at dusk, you can make yourself easily visible thanks to the lighting.

Bluetooth speaker:

- Power: 5 watts RMS
- Battery life: up to 8 hours
- FM radio: integrated
- USB playback function: directly from stick
- Dual pairing: for stereo sound
- Hands-free function
- Bluetooth version 5.0
- Micro SD card reader
- Waterproof according to IPX6
- AUX-In: 3.5 mm jack

Powerful drive

The Balance Board is equipped with two electric motors that deliver 2 x 200 watts of power. You can reach a top speed of up to 12 km/h. A range of up to 10 km is possible with one battery charge.

Puncture-proof tyres

The solid rubber tyres offer safety. You can ride anywhere without any problems and even have a perfect ride on uneven or bumpy terrain. They will not run out of air even if there is a sharp object in the way.

**For transport**

The backpack is made of strong and durable nylon ideal for carrying and storage. It protects the board from water and rain so everything stays clean and protects the paint.

An additional mesh pocket is the ideal place to store accessories such as the balance board's charging cable. It can also be ideally used for drinking bottles, wrist pads, sunglasses, etc. The shoulder straps are adjustable, so it is comfortable to carry.
