- **FM radio**

The integrated FM tuner has a station search function and can be operated intuitively.

- **USB**

The integrated USB slot makes it easy to play music from your USB stick.

- **SD card**

The SD card slot also allows you to play music directly from your SD card. The SD card can also remain permanently installed in the device thanks to the matching slot.

Party sound for every situation

Whether at the next garden party or party in the basement, the BE COOL PS55BTK is the perfect all-rounder for every situation in which music is needed. Equipped with USB, SD card slot and FM, the party speaker offers almost everything you need for a spontaneous party.

Let your creativity run free: musicians also get their money's worth thanks to two microphone inputs.

With the PS55BTK, nothing stands in the way of a good time with friends and beautiful memories.

TWS Dual Pairing

Need more sound? Double the music power with True Wireless Dual Pairing!

Pair two PS55BTKs together to enjoy true stereo sound.

Light Show

Disco on the go! The built-in LED lighting turns almost any place into a disco. You can choose your favourite colour from seven.

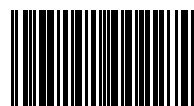

If the lights bother you, they can be easily deactivated.
