

## Highlights

- Robust design in white natural stone look
- Weatherproof
- Protection class IP44
- Splash-proof, even during use
- Integrated timer
- Magnetic closure

### Double garden socket outlet with timer

Discover the new stone-look garden socket outlet from BE COOL!

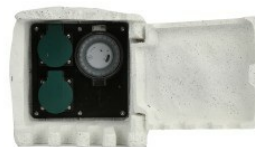

With a max. rated voltage of 230V~ 50Hz and a max. rated current of 16A, it offers an output of up to 3680 watts. The 2-way socket allows you to operate several devices at the same time and thanks to the stable design in white natural stone look, the garden socket not only looks good but is also weatherproof.

The integrated timer allows you to switch devices on and off automatically and thus save energy.

With the five-metre long supply cable, the garden socket outlet can be placed flexibly: thanks to the cover sealed with a rubber seal and the IP44 protection class, it is ideal for outdoor use and integrates perfectly into the overall appearance of your garden. Thanks to cable outlets at the bottom, the door of the garden socket can be closed with the help of the practical magnetic lock even when consumers are connected and the splash water protection remains intact.
