

## Highlights:

- ❖ Suitable for rooms up to 10m<sup>2</sup>
- ❖ Power consumption max. 550 watts
- ❖ 1 Power level
- ❖ Heating panel
- ❖ No operating noise
- ❖ Temperature control 0-37°C
- ❖ LED display
- ❖ Timer function
- ❖ Auto standby
- ❖ Stylish, slim design
- ❖ Wall-mounted and floor-standing unit

## Security

Safety is a top priority for SHX. The heating panel is equipped with overheating protection and a thermal fuse. This prevents risks from the outset.

## SHX Ceramic Heating Panel

The SHX ceramic heating panel is significantly more efficient, economical & environmentally friendly than conventional electric heaters.

The maintenance-free ceramic heating panel works like the sun. The heating waves are transmitted directly to any solid material in the room. In this way, a lot of energy is saved.

The extremely thin ceramic heating panel (1.1 cm) can be mounted free-standing on feet or simply on the wall with the accessories supplied.

## The advantages of our SHX ceramic heating panel at a glance

- ❖ For centuries, people have been heating their homes with tiled stoves and enjoying cosy warmth. Our ancestors already knew what was good. The tiles of the stoves are made of ceramic. There is a good reason for this: ceramic is the material that has been proven to emit heat radiation most efficiently.
- ❖ Thin ceramic plate that radiates heat very quickly and intensively.
- ❖ Ceramics belong to the group of materials that have the best efficiency for heat generation
- ❖ Allergy friendly

## Easy to clean

Thanks to its environmentally friendly and well thought-out design, this IR radiator is very easy to install with the mounting accessories. It is also easy to use and clean.

## Adaptable design

The SHX ceramic heating panel can be painted in any colour, and can therefore be perfectly matched to the room.

## Simple operation on the LCD display

The attached control panel with LCD display and timer, allows easy operation and setting of the desired temperature and time.

## Scope of delivery

- ❖ Operating instructions
- ❖ Feet
- ❖ 4 x plastic dowels and screw covers for wall mounting

## Warranty

- ❖ 2 years

The attached control panel with LCD display and timer, allows easy operation and setting of the desired temperature and time.

Thanks to its environmentally friendly and well thought-out design, this IR radiator is very easy to install with the mounting accessories. It is also easy to use and clean.

The special design and the paintable surface can be easily adapted to the environment.

## Key point allergy!

Due to the nature of the heater, the ceramic heating element generates a temperature that does not cause any dust combustion. Consequently, less fine dust is produced, which again means that ceramic heating panels are a good heating solution especially for allergy sufferers. The ceramic heating panels of the SHX series combine allergy-friendly heating technology with timeless design.

## Technical data

- ❖ Suitable for rooms up to 10m<sup>2</sup>
- ❖ Mains voltage: 220 - 240 Volt
- ❖ Max. Power consumption: 550 watts
- ❖ Heat output: 550 watts
- ❖ Heating range adjustable from 0 °C - 37 °C
- ❖ LED display with temperature sensor shows the room temperature
- ❖ On and off timer: programmable per day
- ❖ Cost-saving due to low power consumption
- ❖ Auto standby with open window (as soon as the room temperature drops by 3°C)
- ❖ Stylish, slim design
- ❖ 11 mm thin
- ❖ Overheating protection
- ❖ Optimum integration into living space - paintable surface
- ❖ High quality ceramic heating panel
- ❖ Wall mounting
- ❖ Free-standing unit
- ❖ Cable length: 1.65 m
- ❖ Product dimensions (WxHxD): 800x600x11 mm
- ❖ Packaging dimensions (WxHxD): 870x637x53 mm
- ❖ Weight net / gross: 7.8kg / 9kg
- ❖ EAN: 9005151002683
