

Highlights

- Power consumption: 2.5 Watt
- Main magnifier (2.5x magnification) and detail magnifier (optional 5x or 10x magnification)
- Adjustable "3rd hand" and soldering iron holder
- 18 LEDs and adjustable light intensity

LED magnifier lamp with 3rd hand

Illuminate your work area with the high-quality LED magnifier lamp from BE COOL. With bright LEDs on two levels that provide differentiated illumination of the working area and the workpiece, you always have the perfect light for your work.

Gain full freedom of action thanks to the practical "third hands" in the form of two clamps that fix the respective object and thus give you the necessary freedom of movement to carry out delicate work under one of the two magnifiers.

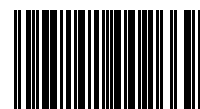

The main magnifier offers 2.5x magnification and with the detail magnifier with 5x or 10x magnification, you have everything in view so that you can carry out even the most delicate work. The practical soldering iron holder provides additional comfort to always have everything within reach.

Let us help you:
from the "3rd hand".

Detail magnifier
optionally with 5x or
10x magnification

Scope of delivery

- LED magnifying lamp with main magnifier and secondary magnifier (5x magnification)
- Spare magnifier (10x magnification)
- Operating instructions

Warranty period

- 2 years
