

## Highlights

- Easy handling
- Fast measurement results thanks to microprocessor
- LCD display and warning indicator

## Scope of delivery

- Breathalyser
- Carrying strap
- Operating instructions

## Warranty period

- 2 years

### Safety first!

With the BE COOL breathalyser, you can get reliable information about your blood alcohol level at any time. Thanks to the simple operation and the fast measurement results controlled by the micro-processor, handling the tester is child's play.

The LCD display shows you the result in clear and concise percentage values or g/L. A warning display signals you if you have exceeded the permitted limit.

With the BE COOL alcohol tester, you can always act responsibly and protect yourself and others.
