Remote control
Included in
delivery

PTC fan heater for wall mounting.

With three different power levels and an electronic thermostat that allows a temperature of 10 to 49°C, you can enjoy the perfect heat every time.

The wall-mounted fan heater is not only functional, but also easy to operate. With the LED display and remote control, you can make the settings you want from the comfort of your sofa.

The 12-hour timer and weekly programme ensure that you can set the heater according to your needs and relax.

Safety is our top priority. The overheating protection and thermal shut-off with automatic reset ensure that you don't have to worry about potential dangers.
