1200 watt
- 2 power levels**  
600, 1200 watt
- Thermostat**  
desired temperature adjustable
- Tilt protection**
- Overheating protection**
- Oscillation function**

### PTC fan heater with ceramic heating element 1200W

The durable ceramic heating elements offer two heating levels (600 or 1200 W) that quickly provide cosy warmth in your surroundings.

Thanks to its compact dimensions, the fan heater is also suitable for mobile use, such as camping.

With the switchable oscillation, you can distribute the heat evenly in the room.

The appliance is comparatively quiet even in the highest setting and has an overheating protection,

a thermal fuse and automatic switch-off if it tips over.

Österreichische  
Marke

*This product is only suitable for well-insulated rooms or for occasional use.*  
Technical changes, errors and colour variations excepted.
