

Highlights

- Colour temperature 2700K-3500K
- Brightness: 100 Lm
- PIR sensor
- 1200mAh Li-Ion battery
- With magnetic holder
- 80° angle adjustment
- Material: ABS

Scope of delivery

- Sensor light
- Operating instructions

Warranty period

- 2 years

Sensor cabinet light with rechargeable battery

With a total of 16 long-life LEDs, it offers an impressive brightness of 100 lm to optimally illuminate your wardrobe.

Thanks to the integrated PIR sensor, the light automatically recognises your movements when you open the cupboard. This means you no longer have to search for a light switch - the light switches itself on to provide you with the best possible convenience. With a detection range of 80° and well-diffused light distribution, you can enjoy even lighting without dark spots or glare.

The sensor cabinet light is equipped with a powerful 1200mAh Li-Ion battery. This means it is wireless and can be placed anywhere without having to worry about sockets or annoying cables. The battery can be conveniently charged via a USB cable (USB cable not included!).

Thanks to the practical magnet on the back of the light, you can easily attach it to metallic surfaces, be it in a cupboard, on the wall or even on other magnetic objects. With the 80° angle adjustment, you can adjust the light to your individual needs and find the perfect lighting angle for your cabinet.

Specifications:

- Material: ABS
- Number of LEDs: 16
- Brightness: 100 lm
- PIR sensor
- Colour temperature: Warm white (2700-3500K)
- Battery: 1200mAh Li-Ion battery
- With magnet
- 80° angle adjustment
- Charging connection: USB - Type C
- Light distribution: Well diffused
- Colour: Black

Dimensions:

- Product: 252×43×42 mm
- Packaging: 260×45×48 mm
- Net/gross weight: 136g / 175g
