

Highlights

- Power 0.28W
- Luminous flux: 2~3Lm
- On/Off with day/night sensor
- SMD2835 LED
- Colour temperature: 4000K
- Material: PC

Scope of delivery

- Night light
- Operating instructions

Warranty period

- 2 years

Night light

With a power of only 0.28W and a voltage of 220-240V, our night light is not only energy efficient but also environmentally friendly. Despite its low power, it offers a luminous flux of 2~3lm, which is enough to provide you with orientation and safety in the dark.

The night light has an intelligent day/night sensor that automatically switches the light on and off depending on the light conditions in the environment. This means you always have the right amount of brightness at the right time without having to worry about it.

The high-quality SMD2835 LED with a colour temperature of 4000K produces a pleasant and natural light. It is neither too bright nor too dim, but creates a calming atmosphere that helps you to move safely in the night.

Our night light is equipped with a single LED that provides even illumination. The compact size and modern design make it a discreet addition to any room design.

The uses are many: whether in the hallway, children's room or other transit areas - our night light is the ideal solution to show you the way without blinding your eyes or disturbing your sleep.

Specifications:

- Power: 0.28W
- Voltage: 220-240V
- Luminous flux: 2~3Lm,
- On/Off with day/night sensor
- SMD2835 LED, 1LED, 4000K
- Protection class: II
- Material: PC
- Suitable for corridors, children's rooms, passageways, etc.
- Colour: white

Dimensions:

- Product: 90×60×53.3 mm
- Packaging: 92×62×58 mm
- Net/gross weight: 45g / 60g
