

Highlights

- **Brightness**
35 lumen
- **Sensor range**
3-5 metres
- **Sensor angle**
120 degrees
- **Illumination time**
approx. 20 seconds
- **Luminous**
Two LEDs
- **Material**
ABS

Scope of delivery

- Sensor light
- Operating instructions

Warranty period

2 years

Sensor light 35 lumen

With a brightness of 35 lumens, it provides enough light to illuminate dark areas while saving energy.

It detects movement at a distance of 3-5 metres and a detection angle of about 120 degrees. As soon as movement is detected, the light switches on automatically and remains illuminated for approx. 20 seconds (with an accuracy of ± 3 seconds). It then switches off again automatically to save energy.

The sensor light has a PIR sensor (passive infrared sensor) that reliably detects movements and thus enables precise and efficient light management. Thanks to the high-quality ABS material, the sensor light is durable and resistant to weathering.

Whether you use it in the hallway, along the corridor or in the garage, the sensor light offers you comfort and safety. It helps you to move safely in the dark and at the same time saves energy because it is only activated when it is really needed.

Specifications:

- Material: ABS
- Brightness: 35 lm
- Sensor distance: 3-5 m
- Sensor angle: ~ 120
- Illumination time: approx. 20s ± 3 s
- PIR sensor
- Voltage 6V (4 x AA not included)
- Colour: white

Dimensions:

- Product: 110x85x34 mm
- Packaging: 116x92x40 mm
- Net/gross weight: 100g / 120g
