

Highlights

- **Brightness**
200 lumen
- **Sensor range**
3-5 metres
- **Sensor angle**
120 degrees
- **Lighting time**
approx. 20 seconds
- **Energy-saving**
due to SMD LEDs
- **Material**
ABS
- **Enduring**
800 mAh battery

LED strip with PIR sensor 200 lumen

This LED strip with its impressive features is the ideal lighting solution for a variety of applications. With a brightness of 200 lumens, it provides excellent lighting for your room. Whether you want to use it for decorating, illuminating hallways or as cabinet lighting, this LED strip is versatile!

The AUTO ON-OFF mode allows you to set the LED bar to activate or deactivate automatically. This saves energy and ensures efficient use. Thanks to the PIR sensor that detects movement, the strip switches on automatically when motion is detected at a distance of 3 to 5 metres. The generous sensor angle of $\sim 120^\circ$ detects movements in a wide range to ensure optimal detection.

The illumination time is approximately 20 seconds \pm 3 seconds, which means that the LED bar remains on for a certain time after motion is detected to ensure sufficient brightness. This is particularly practical to ensure that you have enough time to find your way or enter a room without having to manually switch on the light.

The LED bar has a powerful 800mAh battery that ensures long-lasting illumination. You can easily charge the battery via the included USB cable, which is convenient and user-friendly. The material of the bar is made of ABS, which is known for its durability and longevity.

Scope of delivery

- LED strip
- USB cable
- Mounting material, 3M adhesive pad
- Operating instructions

Warranty period

- 2 years

Specifications:

- Material: ABS + aluminium
- SMD LEDs
- Brightness: 200 lm
- Mode: AUTO ON-OFF
- Sensor distance: 3-5 m
- Sensor angle: ~120
- Illumination time: approx. 20s ± 3 s
- PIR sensor
- 800mAh battery
- Colour: white/grey

Dimensions:

- Product: 445×43×12 mm
- Packaging: 505×55×16 mm
- Net/gross weight: 200g / 300g
