

Highlights

- **Powerful cooling**
provides a refreshing breeze with its 50-watt output.
- **Convenient control**
control it via the touchscreen or the supplied remote control
- **Height adjustable**
Choose from 2 height settings: 660 mm or 950 mm
- **3D oscillation**
creates a calming air pattern that resembles the infinity symbol (∞)
- **Quiet DC motor**
Driven by a quiet and reliable DC motor

2 in 1 pedestal and table fan with DC motor

The pedestal and table fan offers an ideal solution for hot days. With 50 watts of power, it efficiently provides refreshing air circulation. It has versatile settings such as a timer (up to 15 hours), 12 speed levels and 3 breeze modes that can be customised.

Thanks to a horizontal oscillation of 70 degrees and a vertical oscillation of 90 degrees, it distributes the air evenly throughout the room. It is easy to operate via a modern LED display or the remote control supplied.

The fan offers 2 height settings (660 mm, 950 mm) and uses a quiet and reliable DC motor.

Scope of delivery

- Pedestal and table fan (2in1)
- Remote control
- Operating instructions

Warranty period

- 2 years

Specifications:

- Power: 50 W
- 12 speed settings
- 3 modes (normal, natural wind, sleep)
- 15 hour timer
- 70 degree horizontal oscillation
- 90 degree vertical oscillation
- With LED display
- Touchscreen operation
- Remote control (2x AAA required, not included)
- 2 adjustable heights: 660 mm or 950 mm
- Automatic 3D oscillation along a "∞" path
- Direct current motor

Dimensions:

- Product (W×H×D): 330×950×330 mm
- Packaging (W×H×D): 425×245×365 mm
- Net/gross weight: 2.7 kg / 3.8 kg
