Scope of delivery

- Air cooler with castors
- Cooling packs (2x)
- Remote control
- Operating instructions

Warranty period

- 2 years

3 in 1: Cooling, humidifying, ventilating

This powerful air cooler is the key to your cooling oasis. With an impressive output of 150 watts, it offers lightning-fast cooling that you can feel. No more constant topping up of water! With a generous 40 litre water tank and a total water capacity of 60 litres, you can enjoy the pleasant coolness for hours without having to worry about the hassle of refilling.

Whether it's an entrance hall, large office or business premises - our air cooler is designed for rooms with an area of up to 60 square metres and provides extensive coverage. 120° swivel function ensures that the refreshing air flow reaches every corner of your room. So you can feel comfortable anywhere in the room. With an impressive air circulation of 9800 cubic metres per hour, you'll experience the fast and efficient cooling you need on the hottest days.

Use the timer function, the user-friendly touch control panel or the practical remote control to control the air cooler as you wish. It adapts to your needs.
