for an atmospheric ambience

Refreshment and comfort with our mini air cooler!

This compact device with only 7 watts of power provides powerful cooling for your home or office. The 480 ml water tank provides hours of pleasantly cool air. Choose from 3 speed levels and 2 wind modes (cold air, natural air) to achieve your personalised comfort temperature.

Our mini air cooler provides a pleasant breeze in any room with a range of 1.5-3.5 metres and a noise level of less than 30 dB(A). Made from high-quality ABS plastic, it is durable and easy to clean.

With the 7-colour ambient lighting, you can create an atmospheric ambience and the air cooler can also be used as a night light. Simply connect via USB cable to enjoy the freshness and ambience that our mini air cooler offers.
