- Instruction manual
- 10 more aroma pads

Warranty period

- 2 years

Would you like a fresh breeze? Very handy?

Ready to hand in your handbag, in your briefcase or on your desk: the practical hand fan with integrated LED indicator light provides a refreshing, fragrant breeze at the touch of a button - on holiday or on a business trip, in the office, at school or at home.

Battery-operated (1200 mAh battery charging time approx. 2 to 3 hours), the handy device provides between approx. 1, 2 or 3 hours of refreshing air circulation, depending on the speed setting. Rechargeable via the supplied USB cable.

Thanks to the included stand, which can be easily removed, you can place the fan flexibly on a desk, for example.

Despite the power, the high-quality rotor blades are particularly quiet.
