for rapid heating of the room so you can enjoy instant warmth
- **Patented design**
with special louvre structure
- **WiFi control**
Easily control your oil radiator from your smartphone

Scope of delivery

- Oil radiator
- Stand
- Operating instructions

Warranty period

- 2 years

With this oil radiator, you not only experience a reliable heat source, but also maximum comfort and efficiency. The three heating levels allow you to customise it to your individual needs.

The adjustable temperature range of 10-35°C allows precise control over the temperature settings. The intuitive touch control panel with a white LED display enables effortless control. The 24-hour timer allows heating times to be planned in advance to save energy.

In particularly cold moments, the boost heating function ensures that the room heats up quickly. For maximum safety, the oil-filled radiator is equipped with a child safety lock, tilt protection and overheating protection.

The patented design with a special louvre structure not only gives the radiator a unique aesthetic, but also efficient performance. For convenience, the WiFi control allows you to control the radiator remotely via your smartphone, regardless of your location.

Specifications:

- Voltage: 220-240V~ 50-60Hz
- Max. Power: 2000 Watt
- 3 heat settings (800 / 1200 / 2000 Watt)
- Digital temperature setting: 10-35°C
- White LED display with touch control panel
- 24 hour timer
- Boost heating function
- Child safety lock
- Tilt protection
- Overheating protection
- Patented design with special louvre structure
- Louvre size: 145x580mm
- WiFi control

Dimensions:

- Product (W×H×D): 420×630×245 mm
- Packaging (W×H×D): 443×697×165 mm
- Net/gross weight: 10.2 kg / 10.8 kg
