Highlights

- **Power output**
380 - 450W
- **Keep warm time**
2 - 6 hours
- **Surface temperature**
Adapted to 55 - 65°C
- **Ideal for warming up**
for hands and feet for a
cosy feeling on cold
days
- **Built-in thermostat and
fuse**
ensure constant and
safe operation

This electric hot water bottle is versatile and ideal for warming hands and feet - whether at home, in the office or when travelling. You will experience unrivalled comfort and cosiness with this electric hot water bottle.

The hot water bottle has an output of 380 to 450 watts for quick and efficient heating. It takes approx. 15 minutes to charge and gives you up to 6 hours of cosy warmth.

The high-quality material and ergonomic design not only offer a pleasant feel, but also durability and comfort.

Safety is paramount: the surface temperature is between 55 and 65°C for pleasant and safe warmth. The explosion-proof charger ensures safe charging, while the built-in thermostat and fuse guarantee constant and reliable operation.
