Compact design for wall mounting

Lieferumfang

- Wall-mounted fan heater
- User manual
- Remote control

Garantiezeit

- 2 years

This 2000-watt wall-mounted fan heater impresses with its modern design, high efficiency and ease of use. The compact unit is designed for wall mounting and is ideal for quickly heating living rooms, bathrooms or offices. Thanks to its slim housing, the fan heater blends harmoniously into a variety of interior designs whilst saving valuable space.

Inside, a powerful PTC ceramic heating element ensures rapid and even heat distribution. The wall-mounted fan heater has two heat settings, allowing the heat output to be flexibly adjusted to suit your needs. The desired temperature can be set between 20 and 40 °C.

For convenient control, the unit is fitted with a touch control panel and a remote control. The integrated LED display makes it easy to read the temperature and active functions at any time. A 12-hour timer allows you to set the desired running time, whilst the built-in overheating protection ensures additional safety.

Specifications:

- Max. power: 2000 W
- 1 fan speed
- 2 heating settings
- PTC ceramic heating element
- 12-hour timer
- LED display with touch control panel
- Adjustable thermostat: 20°C–40°C
- Energy-saving mode (ECO)
- Protection class: IPX2
